Page-a-Minute Memory Book by Harry Lorayne

This Book Actually Does What It Says...

If time is money, then memory is the bank and Harry Lorayne will show you how to make every minute count, dramatically increasing performance, productivity, and profits.

-- Enhance your powers of concentration and observation.

-- Double or even triple your daily work output, eliminate careless errors, quickly skim and retain business reports, news articles, and technical data.

-- Breeze through exams, improve your grades and classroom performance, reduce your homework time, and increase your free time.

-- Give speeches without notes and without anxiety, learn foreign languages more easily, excel at poker, bridge, and other games.

-- Heighten your mental agility, learning power, and conversational skills.

-- Discover the newfound authority, confidence, and pleasure that come from a quick, sharp, active mind. Whatever your lifestyle or walk of life, begin your countdown to success today, and put a world of knowledge and know-how at your fingertips.

My Personal Review:
I have read other of Harry Lorayne's books and they have all been valuable. But this one is unique in that it gives a page by page plan to learn the techniques. You can go through it at your own pace and it's presented in an easy to understand way. You can spend as much time as necessary with each page. You can finish reading it understanding the mechanics of memory a lot better, and even a surface practicing of the techniques will help a lot. Of course, systematic practice will work even better. Some of Lorayne's other books present more detailed information, but this one is a good, solid presentation of memory improvement and is maybe one of the easiest ones to begin to put into practice for immediate improvement. It is especially good for people who have had no prior exposure to memory.
improvement and would like to have some practical advice that they can implement right away. Try it! You won't be disappointed.
